

## 2.13. Immunofluorescence Staining of the Kidney Sections

 Gry H. Dihazi    Marwa Youssef Eltoweissy    Olaf Jahn    Hassan Dihazi

Updated date: Jul 2, 2021

 An abbreviated version of this protocol was published in Cells in Jan 2020

The Secretome Analysis of Activated Human Renal Fibroblasts Revealed Beneficial Effect of the Modulation of the Secreted Peptidyl-Prolyl Cis-Trans Isomerase A in Kidney Fibrosis

DOI: 10.3390/cells9071724
